2. ***Effects of carbon footprints:*** Explore three significant effects that carbon footprints have on our environment and ecosystems.
 3. ***Activities that contribute to carbon footprints:*** Identify and discuss five common activities or practices that contribute to carbon footprints, particularly during festivals.
 4. **Brainstorm and propose five activities that you can personally undertake to reduce carbon footprints** in your daily lives and during festive celebrations.
- **NOTE: Use pictures and cut-outs wherever possible to make your work attractive and interesting**
