Dear Parents

Education should be fun and not forced. Any activity done in the spirit of fun is not work at all. Here at SIPS we lay emphasis on play way methodology through various activities like playing games, music and creative activities. This helps to enhance the various aspects of development like physical, psychological, intellectual, motor skills and so on. Play way method is not strictly structured and documented but is flexible to match with the interest and aptitude of the children. It is spontaneous and allows complete freedom of expression. Assessment of overall skills and aptitude of the child is done by teachers through daily interactions and is communicated to the parents from time to time.

No work will be given as homework, ensure regular practice of the work/concept taught in the class. There will be no formal exams.
