School Building is bounded as under:-

North - GH-9 (Resi. Colony) South - Main Road
East - Park West -Kendriya Vidyalay

I had visually inspected the above cited school building on dated 28.04.2022 at 2:00 PM. The School building consists of Ground Floor and First Floor. During the inspection I observed that the building is RCC Framed structure i.e, Column, Beam and slab with 230mm thick brick wall. No any cracks, bending and deflection has been found in the structure

The above mentioned existing building satisfies the safety requirement and the structural design including safety from natural hazards based on soil conditions has been duly incorporated in the design and construction.
